

Data Protection Impact Assessments

Data Protection Impact Assessments are the key to GDPR and Security Compliance. They seek to ensure that new projects, systems and procurements involving personal data have privacy built into their design. Failure to carry out a DPIA for high risk processing can lead to enforcement action by the ICO.

This workshop will give you a step by step guide to completing a DPIA and teach you how to audit your organisation. It will help you identify and manage risks relating to personal data through a mixture of theory and practical exercises.

“

Very good course. Informative and practical. Helped to distinguish between DPIAs and audits and worked through examples to test the approach and new found knowledge.

MJ, Sheffield City Council

”

Cost £389 plus vat

Lunch and refreshments included

Upcoming Dates 2020

London	29 May 02 Sep
Manchester	01 Apr 26 Jun 07 Oct
Edinburgh	16 Sep
Belfast	12 Mar 21 Sep 13 Oct
