

DIFC Data Protection Officer Certificate

A qualification for Data Protection Officers appointed under the new DIFC Data Protection Law

The Dubai International Financial Centre (DIFC) Data Protection Law No. 5 of 2020 (DPL2020) came into force on 1st July 2020. It regulates the processing of personal data and imposes enhanced governance and transparency obligations. If your business is registered in the DIFC or you process personal data within the DIFC, the new law applies to you.

DPL2020 requires a fundamental assessment of the way your business handles personal data from collection through to storage, disclosure and destruction. With enhanced rights for individuals and substantial fines for non-compliance you cannot afford to ignore DPL2020. Now is the time to prepare for the new law which will be fully enforced from 1st October 2020.

A key requirement of DPL2020 is for businesses conducting high risk processing activities to appoint a Data Protection Officer. This person is required to have a detailed knowledge of the new law and the practical skills to advise your business on implementing policies and procedures to ensure compliance.

Act Now's DIFC Data Protection Officer Certificate is a practical qualification focussing on building the essential expertise and knowledge required to undertake the DPO role and implement DPL2020 in the DIFC business environment.

This course builds upon the foundations of our highly popular GDPR Practitioner Certificate, which is one of Europe's leading GDPR qualifications.
